Matthew Kaye
Jaenat Systems
Fax 03 93971202

To whom it may concern,

Matthew Kaye has been my IT specialist and computer supplier for a period of nearly 6 years. My previous supplier had been Southern Cross Galileo. The initial reason for my change was Southern Cross Galileo were efficient in providing support for their equipment and programs however they had little idea of other areas of my business that required support. Matthews previous experience in Travel and GDS Systems has been a huge benefit to my operations and since 2002 he has installed and maintained 2 new systems for me. Only last week I ordered a new server through Matthew and will shortly be replacing my workstations again using Matthew and Jaenat systems

Even though I am a regional agent and 2 hours drive from Matthews's base he has been able to maintain my systems far better than any of my previous contractors.

I have recommended Matthew and Jaenat systems to many of my industry colleagues and they have all been more than satisfied with the quality and integrity of service provided.

Kind regards
