TO WHOM IT MAY CONCERN

Matthew Kaye has provided technical support to Lending Link for the past 5 years. In this time he has setup our network, BES server, pcs and laptops and other IT systems as required.

Matt and his team are always there when we need them which is very much appreciated. No matter how big or small the problem they are always able to fix it with the minimum of fuss and within a very realistic timeframe. They are always professional and courteous and also, importantly, able to convey technical information in a way that can be understood by even the most non-computer literate staff.

I recommend them for any IT matters you may have.

Yours faithfully
Lending Link Pty Ltd
